Highly Important to Farmers.

HAVING purchased the right to use BOND MORSE'S Patent of making MANURE in all the towns in the County of Penobscot will dispose of, west of Penobscot and south to Piscataquis rivers I am ready to sell them same by towns or individual rights as may best accommodate

When it is taken into consideration that one ton of dry straw can, at the price of 7 days be converted into from six to eight loads of rich manure as manure for corn—and that green vegetable and turf may be made into manure of equal value in 14 days—and that the high temperature produced by fermentation destroys all the various seeds therein the valuable method may be fairly considered as forming a new era in Agriculture What the foregoing results have been I am prepared to show by testimony from scientific and practical farmers in various sections of the country

Single rights will be sold for the moderate price of four dollars and the purchaser will be furnished (gratuitously) with a book describing the process of making the foregoing together with many other kinds of compost manures, but to those who purchase by towns or to private companies my terms will be as low as in any other section of the State

Persons at a distance, by forwarding four dollars (post paid) will be promptly furnished with the right and book as aforesaid

SPINAL COMPLAINT

POSITIVELY CURED BY THE

Cramp and Pain Killer!!

MESSRS. CURTIS & PERKINS—

Gentlemen

It is with pleasure that we communicate to you the following facts and to the public who may be suffering from disease of a similar character

Our daughter, a girl of fifteen years of age was taken down with what is called the Spinal Complaint, and in a few months was almost apparently on the verge of the grave Her case was examined by different medical gentlemen and all were of one opinion as to the nature of her complaint, and each prescribed for her, but without any good effect, her limbs became contracted, her head drawn down upon her left shoulder, and she was unable to walk only a few steps After trying many highly recommended prescriptions for her relief but without effect, I called at your Apothecary Establishment to see if I could find any thing that would be likely to help her and you informed me that the *Cramp and Pain Killer*, applied with the Plaster accompanying me had proved effectual to a daughter of yours, and recommended it to me and we feel happy in saying that we shall ever feel under the deepest obligations to you for recommending so invaluable a medicine, which we believe has raised our daughter from a premature grave and entirely cured her We have purchased seven bottles of the Cramp and Pain Killer with some of the Plaster and confidently say they have effected a perfect cure Our daughter can now travel at any and all times, without feeling any effects from her back—her form is wholly restored, and she is so every way well Should any doubt the above statement, and at the same time they or their friends are laboring under a similar affliction, if they will call upon us at our residence Union street Bangor, we can satisfy the prejudiced mind of the facts. We would further say that while using the above medicine we bought a bottle of Davis's Pain-Killer and applied it but while using it found the result different from that manufactured by you from some cause unknown to us it did not have that virtue in it as that of yours and we feel in duty bound and gratitude to you to make this acknowledgement for so invaluable a med cine in suffering humanity

Yours truly

NEWSPAPERARCHIVE®

Whig and Courier.

John S. Sargent, Editor.

SATURDAY, JANUARY 1, 1848.

The New Year.

The New Year, Eighteen hundred and forty eight has dawned upon us It is a season of congratulation, and we join in the usual custom in wishing each and all full happiness in the New Year

It is well to mark the successive landmarks of the passing years, to commune with our past selves to examine anew our position from the advanced stand point which the unfolding of the New Year affords, and to note whether, as Time's ponderous tongue has tolled another period, and the strong hours are conquering us, our earthly passions have grown cool and holy purposes gained strength in our minds

The coming of the New Year with all its pleasant and all its joyful associations, suggests a review of the past, a wise examination of the present, and the laying of plans for the future What in all the past, with every hour clustered with obligations and duties—with its joys and its sorrows, its hopes and disappointments, its people's foes and struggles and efforts—what is that we purposed and accomplished aright, as the highest satisfaction—and what amidst life's mistakes have planted the sharpest thorns in our path Whatever of good we have found let us seek out the means by which it was attained and cherish them as our dearest treasures—What of mistake and error the past has unfolded, let us shun as our dreaded bane The threshold of the New Year is a most fitting occasion for laying down a plan of life which shall embrace our moral and religious, as well as our intellectual, as all and business affairs. Whatever habits of an injurious effect either upon ourselves, or our neighbors, we may have indulged and should now be met by the determination to resolve that they must yield the place they have usurped

While the love of gain has laid claim to that time and to those powers which should be devoted to high objects a reform should here be ushered in There is a reforming and a sustaining power in the fact that this day being one strongly marked in the calendar, which will give unbounded for advantage to him who will take the effort to improve it by a strong resolution to the untiring of his higher powers

In wishing all a happy New Year, we would direct their attention to some of the ways and means by which happiness may be secured — In business there should be honesty industry punctuality and prudence In social intercourse there should be an encouragement of all the virtues, and in Religion, which is the fountain of all true happiness, there should be sincerity and a humble effort, to be rather than to seem.

[From the N Y Express]

Democracy and Gen. Taylor

A Locofoco Democrat "by feeling of ardent admiration" for General Taylor, first put him in the seeming false position that he occupies as a Whig, and in an instant checked the rising Whig ardor of the country for him as the Whig candidate for the Presidency "Democracy," in Pennsylvania, has been practising the same trick as was by the following letter, which is going the rounds of the Press—

Headquarters Army of Occupation
Brazos Island, Texas, Nov 25, 1847

Dear Sir —

I take great pleasure in acknowledging the receipt of your favor of the 8th Oct, enclosing to me a copy of the proceedings of the Democratic Taylor State Convention which assembled at Harrisburg, Pa

The resolutions of the meeting have given me great pleasure and set at rest, as the expression of high respect and consideration from the people of Pennsylvania, and I embrace the earliest moment to acknowledge my warm appreciation of the high honor thus bestowed upon me by their nomination of me for the Presidency

To yourself I would not fail to express my thankfulness for the very courteous and acceptable manner in which you have conveyed to me the proceedings of the Convention,

I remain dear sir with high respect
Your most ob't serv't

Major General U S Army

Henry A Muhlenberg, Esq President Taylor State Convention Reading, Pa

In this letter there is not a word but what any and every Whig should utter in reply to a courteous communication, but when the fact is known that Mr. Muhlenberg the President of the so-called State Convention (of which we never heard, much by the way) is a son of the distinguished and well known democrat Mr Muhlenberg, Ex Minister to Russia, and long a leading member of Congress the suspicion is extended among the Whigs, that all is not right somewhere Locofocism, here, as well as in Pennsylvania, undoubtedly has made its effort to put General Taylor in a position where the Whigs cannot nominate him with honor —after which they will as a matter of course, throw him aside as worthless

Upon General Taylor's position we have already and at length expressed our opinions. Where his name has been suggested as among the members of the Legislature of Virginia we see that is coupled with a subjection to a Whig National Convention (from that Convention General Taylor should obtain and accept a nomination, but position would be understood and defined, so that the Loco Foco game would be blocked. But their object now is probably only, so to create distrust among the Whigs as to render it impossible for them to offer him a nomination. Foreseeing the danger, all should forearm to avoid it.

Juvenile Concert and Floral Procession.

Mr Hopkins the popular teacher of music in our public schools has been for some time engaged in drilling his school of juvenile singers for the purpose of giving a concert and a grand Floral procession He has fixed upon Thursday evening next as the time for the exhibition, and Market Hall as the place Our school has been well drilled, and the first concert of the kind ever given in this city will be exceedingly worthy, attending both for its appearance the pleasant company of many of the children of our city and for inducing to their delightful songs.

The expense of the concert will go to swell the number and some little reward for his long continued and gratuitously rendered services.

The exhibition of two hundred beautiful girls decked with evergreens and, bearing bouquets of flowers and chanting their sweet songs can not fail to afford the highest satisfaction. There should be a full attendance

We have received from Messrs C. E. Smith & Co New Series 10 of 'The Daguerreotype' These are handsomely printed on good paper, and contain valuable and good books, and make one feel happy and like growing fat only in reading The matter too is interesting and worth reading for mind's growth and for pleasure at once

Mr. Hopkins requests us to invite the Mechanic's the girls who compose his juvenile class of singers, to meet with the class at Market Hall this afternoon at two o'clock

A public dinner has been tendered to Commodore Stockton, by a number of the most respectable citizens of Philadelphia The Commodore has accepted the invitation.

Want of Confidence

To the Editor of the Whig and Courier

"Money never was so scarce," is a remark often repeated in the highest, as well as in the lowest circles of society This scarcity of money now, when only a few months ago it was so plenty in this State as to cause Gov Dana to complain of the Banks to the Legislature, is ascribed to the "want of confidence." Capitalists when applied to for a loan, shrug up their shoulders, and with an ominous shake of the head declare they can't do it, owing to the "want of confidence" And the Bank directors, or rather directors of little banks follow of the lead of their masters, throw out as it is called, the paper of their best customers, declaring "they have no confidence" This is a parrot cry or in application of the term, "want of confidence"

A few years since, during one of those periodical revulsions which have become so frequent in the enlightened civilized, and christianized portion of the world, Mr Nathan Appleton, of Boston wrote a book on the currency, a subject very intimately connected with credit and confidence It is not a very difficult thing for a man to have credit to enable him to get in debt, but to inspire his creditor with sufficient *confidence* to let him get out, is not so easy to accomplish

Mr Appleton says in his book—"with me, it is not the want of confidence, but has caused the derangement of our currency, but on the contrary, the profligate use has been the giving confidence when it was not warranted, where there was one It is best that this confidence should be frequently put to the test

Mr Appleton it is proper to observe, is one of the dollar destroyers of New England a million aires, had what comes from his pen is received in the monetary and commercial circles as *law*, if not as gospel.

The present *tightness* in the "money market and the pressure felt by individuals, according to Mr Appleton, does not arise from any *want* of confidence but is merely the effort of putting confidence to the test

"It is best, says Mr Appleton, "that this confidence should be frequently put to the test" If this be so then the more frequent and severe the better It becomes, therefore, the duty of every man while this trial lasts to embarrass his neighbor in meeting his payments, as much as he can. Is this the true policy?

A Gleaner Farmer

The editor of the Saco Union announces the sudden death at Washington there speaks of him as a man, a citizen and a neighbor It is an honorable tribute and the more to be valued because coming from one strongly opposed to him in political sentiment

We need not say that this unexpected event has cast a gloom over society here, and caused sensations of deep and heartfelt sorrow In the corporate feeling of sadness, which is bounded by no limit or line of sect or party, and in the sympathy which pervades a whole community for a stricken family, we deeply participate — Society here, in its death, has sustained a loss of no ordinary character, and which will not be fully realized until after the first shock is over

Irrespective of his political sentiments, and of these we have little disposition to speak, as we choose rather to gaze on the sunlight as it lies on the shade, Governor Fairfield had many bright and pleasing traits of character He will be remembered long and well for his estimable qualities as a citizen, and for his social and unassuming virtues. Now that death has set his seal upon the lips, and closed the eyes, those pleasing traits will be recalled and dwelt upon—the political opinions will be forgotten—the private worth acknowledged Differing as we ever have from him in political sentiment, we trust and pray that bitterness of feeling which differences of opinion sometimes produces, we have never caused to disturb in the striking simplicity of his character, in its justice to his admirable social qualities, and respect him for his private virtues Forgetting the politician, we do honor to the man, and faith not surprised at the deep, all pervading feeling of sorrow which his sudden death has awakened in our community We understand that an session will be held the occasion of performing the last and office for the dead, in such demonstrations of respect as are due in the memory of one who has not only occupied high and important political trusts, but has also by his private virtues, endeared his memory to all the hearts of the community of which he was a member

The following good toast was lately drunk—"Uncle Sam—a respectable branch of the Hall family. He broke the bonds of paper money tyranny, and went into business on his own account, in 1775 He is now well to do in the world, clothing himself and feeding his people in the largest

Anecdote of General Taylor.

A friend relates to us, that while Gen. Taylor and his distinguished command were returning to Monterey from Victoria, in obedience to the order of Gen Scott, the weather was bad and the roads worse His troops had to wade through mire and water, and many were almost unable to proceed, through fatigue and sickness Gen Taylor, evidently feeling on his horse, as a compliment of an independent reached that seat, and in a way as that could be heard at some distance, 'Come, my brave soldiers, give me your hand, put your feet on mine, and spring up behind me' The men obeyed the orders to the letter, and as the wearied him horse, the old General continued in the same energetic tone, 'If every officer of my command would take a sick soldier behind him there would be less suffering and complaining' As he concluded it was amusing to see his staff and others hurriedly endeavoring to alight and get up a tired soldier —N O Natchal

If history teaches any one truth with more distinctness than another, it is this—that conquered nations never can be made to love their conquerors The vanquished may be well treated, incorporated into and become a part of the conquering country, enjoying rights and privileges similar to those enjoyed by the conquerors, but the feeling of animosity and hatred which the conquest engendered cannot be subdued, either by force or by kindness, it descends from generation to generation, and becomes the fruitful cause of commotion and strife Shall humanity be deaf to the teachings of history, and despising its warnings, persist in the attempt to destroy the nationality of Mexico It may seem glorious in the eyes of some to go on conquering, by fraud and violence, province after province to our wide extended country, but true glory is not thus bought or will a nation any more than an individual, purchase real peace and prosperity when it loses sight of the sacred principles of truth and justice Suppose Mexico a blotted out of the list of nations by our own capacity Her population can not be so blotted out. Annexed to our union they would bring into the common stock nothing but disunion—as tributaries to us, or enjoying equal rights with ourselves, our authority and our forms of government could only be sustained by military force, because the irreparable injury we have done them would be a 'secret rankling cause' of evil, ready at all times as opportunity offered 'to trouble the waters and keep them tinged with blood —Sacramento

The House of Prayer.

Wouldst thou have thy temper of thy soul raised above the temptations and cares of life to the region where God and virtue and endless peace and happiness dwell—go out, my brother and the wilderness, climb not the steep rock, seek not the gloom of the forest, or the resounding shores of the ocean—but enter, with the train of devout worshipp ers, to the house of prayer there with thy children, by kindred, friends and neighbors, bow down before the High God In the general countenance of this place do not tend to calm the passions of the soul, to allay its feverish anxieties, and infuse into it sensations of peace and piety, of duty and brotherhood, how strangely should we all have, forgot ten everything which it most behooves us to regard and to remember! This is the climate of devotion It is the atmosphere of peace and thanksgiving that we breathe here and we are not purely intellectual, but sentient, impressible beings.

The Substitute for Ether

Among our foreign extracts yesterday, was a paragraph mentioning the discovery of a new agent for producing insensibility and thereby preventing pain under surgical operations This new agent is an ether chloroform, or the perchloride of formyle We observe in the late English papers many accounts of difficult operations having been performed with great success under the influence of this chloroform which it seems was discovered by Prof Simpson of Edinburgh The properties of the chloroform are said to be superior in every way to those of ether—its action more rapid and complete, the sensations produced more agreeable, and the after sick taste so far from disagreeable as to leave A few quantity of the material is required to produce the desired insensibility than in the case of ether Fifty drops or even half that quantity is said to be sufficient for the purpose, and there were none of the unpleasant after effects which frequently follow the use of ether We understand that Dr C T Jackson, of this city received by the last steamer a bill account of this new discovery and that he has prepared the chloroform for Dr Hitchcock, the well known dentist who is now employing it with entire success—Boston paper

How to Whiten Linen.

Fruit stains, iron mould, and other spots on linen, may be removed by applying to the part, previously washed clean a weak solution of chloride of lime or soda oxalic acid, or salts of lemon in warm water, and it often may be done by merely using a little lemon juice The part which contained the stain or spot, should almost immediately after be thoroughly rinsed in clear warm water (without soap) and immediately dried in the sun

Linen that has acquired a yellow or dingy color by careless washing, may be restored to its former whiteness by working it well in water to which some *strained* solution of chlorine of lime or soda has been added, observing to well rinse it in clean water, both before and after the immersion in the bleaching liquor Never attempt to bleach *unwashed* linen and avoid using the liquor too strong, for in that case the fabric will be rendered rotten

It is Never too Late.

Ah! that I could be heard by all oppressed, dejected souls! I would cry to them,—"Lift up your heads, and confide still in the future, and believe that it is never too late See! I too was bowed down by long suffering, and old age had moreover overtaken me, and I believed that all my strength had vanished, that my life and sufferings were in vain, 'and behold!' my heart appeased, my soul strengthened, and now in my fiftieth year, I advance into a new future, attended by all that life has beautiful and worthy of love

The change in my soul has enabled me to comprehend life and suffering, now I am now firmly convinced that [illegible] endeavor is in vain, and that [illegible] and griefs may bury beneath their pall of snow the sown corn, but when the spring arrives, it will be found true that there grows much bread in the winter night'

Wise men say nothing in dangerous times The hen called the sheep to ask her if his throat was safe, she said 'Aye,' and he hit off her head for being a fool He called the wolf and asked him He said 'No,' and he gave him to pieces for a fattener—At last he called the fox, and asked him 'Truly,' said he, "I have got a cold, and cannot smell"

An excellent rule for living happy in society is, never to concern one's self with the affairs of others, unless they desire it. Under pretence of being useful, people often show more curiosity than kindness

How many a one loses his neighbor for no other reason than because he knows he deserves himself to be loved by him

Dr. Townsend's SARSAPARILLA,

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD

This extract is put up in quart bottles, at less than cheaper, pleasanter and warranted superior to any sold It cures diseases without running purging sickening or debilitating the patient

The great beauty and superiority of this Sarsaparilla over all other med cines which it eradicates disease invigorates the body It is one of the very best Fall and Winter medicines ever known It so purifies the whole system and strengthens the patient as to create a new pair and rebuild, a power possessed by no other medicine And in this lies the grand secret of its wonderful influence It has performed within the last two years more than 30 000 cures, of severe cases of disease, at least 20 000 of them were considered incurable

More than 3000 cases of Chronic Rheumatism
2000 cases of Dyspepsia
4000 cases of General Debility and Want of Energy
2000 cases of the different Female Complaints
2000 cases of Scrofula,
1500 cases of the Liver Complaint
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption

and thousands of cases of diseases of that kind such as Ulcers, erysipelas, salt rheum, pimples on the face, blotches and sores, all of which are speedily dispelled by a few bottles of this Sarsaparilla, together with numerous cases of sick headache pain in the side and chest spinal affections &c &c

Thus we are aware, must appear here in this notice but we have letters from physicians and others in almost all parts of the United States, inform us of extraordinary cures Wm Hawkins, Esq one of the most respectable druggists in Newark N J certifies to the truth of the statements made in regard to the Sarsaparilla, and there can be no reason to doubt the truth of them when we have letters from gentlemen of the highest character. It is the best medicine for the prevention of disease known It undoubtedly saved the lives of more than

5,000 CHILDREN THE PAST SEASON

as it removed the cause of their complaints during the summer season If it is taken in the manner and for the length of time directed it will in almost every instance cure the most obstinate case of

RHEUMATISM

This Sarsaparilla is recommended with the most perfect confidence in Rheumatic complaints, even when of the most inveterate and chronic The astonishing cures it has performed and is performing daily, are truly wonderful Other remedies may afford temporary relief, but this is the only one that can be relied upon to cure the disease, and it does so in every instance, when the directions are strictly followed

It is not a mere quack nostrum, but is the result of long and patient research and investigation by one of the most learned and scientific physicians of the age, and is daily prescribed by the most eminent physicians in the country, as the best remedy for the cure of which it is recommended

Dear Sir Some one of our first attorneys, Hon Truman Smith, Esq, Gen Ethan Allen lawyers in Hartford Conn The following is an extract of a letter received from Mr Townsend—I have used one bottle of your Sarsaparilla, and I find it an excellent article It is superior to any thing I have ever used for the cure of rheumatism, and will cheerfully recommend it to my friends Many of my patients have been cured of various diseases by its use, and I have no doubt it will cure many cases where your medicine has failed to cure, and also knowing it recommends itself, as I have discovered I obtained a bottle of your Sarsaparilla and followed the directions for one week In a short time my rheumatism entirely left me, and I have rested better to-night than I have for months Being grateful for the relief, I take pleasure in thus acknowledging it, and recommending it to the public

Hartford, Aug 17 1847 Lee Gerard and Co

TO PHYSICIANS AND MARRIED LADIES

The extract of Sarsaparilla has been extensively used in reference to female complaints, and in which a reason to suppose that as an alterative and in the turn of life, it should be found as such a certain preventative to a host of maladies and horrible diseases to which females are subject at this time of life This period may be safely differed several years by using this medicine It is also valuable to those who are approaching confinement as it is calculated to assist nature by quieting the feelings and invigorating the system Indeed in all cases it is invaluable for all of the delicate organs to which women are subject It invigorates the whole system, renews permanently the natural energies, restores the vigor and tone of the body and gives a healthy appearance to the complexion—which is the case of most and more taken for females with disease and diseases

SCROFULA CURED.

The Sarsaparilla conclusively proves that the Sarsaparilla is a perfect control of the most obstinate humors in the blood Three persons cured in one town as unprecedented

THOMAS CHANDLER

Dr Townsend Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine They were afflicted very severely with it, and were taken four bottles, it took them away entirely I feel myself under deep obligation for your

TESTED BY THE EXPERIENCE OF THOUSANDS FOR 20 YEARS PAST

The Vegetable Pulmonary Balsam,

Has proved itself the great Revulsive Agent known for Coughs, Colds, Consumption, Asthma, Pleurisy, Spitting of Blood, Hooping Cough, and all Diseases of the Pulmonary Affections and Organs of the Lungs, as has and will be evidenced by the testimony of the most respectable Physicians and others, who are employed in the Hospitals, Infirmaries, Public Institutions, &c. &c. throughout the United States, as well as numerous certificates from private individuals, after having tried the various preparations, without finding the desired relief, but finding the Balsam to accomplish in a few days what all else had failed to do in weeks, and in many cases pronounced incurable by the most skilful Physicians, and given up to die, were restored to health and strength by the use of this Balsam, which they acknowledge to be after all, the best remedy known for the above complaints.

☞ Beware of Counterfeits, and Imitations, such as *Coffins Improved Pulmonic Balsam*—for none *Pulmonic Balsam*, or by no other name but the name of Vegetable Pulmonary Balsam, and see that the written signature of Wm Jos's Coffin is upon a yellow label on the side wrapper. Each bottle is also stamped Vegetable Pulmonary Balsam.

Prepared by REED & COFFIN, (formerly Reed, Wing & Co) Importers and Wholesale Dealers in Medicines, Paints, Chemicals, Dye Stuffs, 51 Chatham street, Boston, and sold by Druggists, Apothecaries and Country Merchants generally. For particulars and certificates inquire for a pamphlet containing each bottle.

PATENTS.

AMERICAN AND FOREIGN OFFICE,

And Agency of the U S Patent Office, Washington

22 State Street—Boston.

THE subscriber, by appointment of the Commissioner of Patents is Agent to the U S Patent Office for the purpose of receiving and forwarding to the same all such inventions, improvements of ingredients and manufactures as shall be intended to be patented, or descriptions thereof which will be received and forwarded, free of commission and risk, to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary papers and Drawings, will make researches into American and Foreign works, for and bring the validity or utility of inventions, and render opinions on legal and scientific matters respecting the same. Patentees may rely on his prompt and faithful services.

By application at this office, inventors may avoid the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. The experience of fifteen years practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different nations, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts here kept of inventions patented at Washington, enable me to afford important assistance and information in investigations as to ascertain if patents which are respectively applied for, can be obtained.

DR. UPHAM'S Vegetable Internal Remedy FOR THE PILES!

Or A Cure for Life Secured.

For the cure of Piles, Inflammation of the Liver and Spleen, Inflammation, Soreness and Obstruction of the Stomach, Bowels, Kidney and Bladder, Inflammatory and Mercurial Rheumatism, Impurity of Blood; Weakness and Inflammation of the Spine; and for the relief of Married Ladies.

THE VEGETABLE PILE ELECTUARY invented by Dr. A. Upham a distinguished Physician of New York city, is the only really successful remedy for that dangerous and distressing complaint, the Piles, ever offered to the American public.

Mark that it is an INTERNAL REMEDY—not an external application, and will cure any case of Piles, either bleeding or blind, internal or external, and probably the only thing that will. There is no mistake about it. It is a positive cure—*speedy and permanent.* It is also a convenient medicine to take, and improves the general health in a remarkable manner.

Each box contains twelve doses, at $1-3 each or one. It is very mild in its operation, and may be taken in cases of the most acute inflammation without danger—All external applications are in the highest degree objectionable, irritant and offensive; and from the very nature of the disease, temporary in their effects. This Medicine attacks the disease at its source, and, REMOVING THE CAUSE, renders the cure CERTAIN and PERMANENT.

INFLAMMATORY DISEASES.

Although the ELECTUARY was originally prepared for the cure of Piles, yet it has proved itself a medicine far superior to all others, in all diseases of an inflammatory character, with a determination of blood to any particular part, or organ as Inflammation and congestion of the Liver and Spleen; Inflammation, Soreness and Ulceration of the Stomach, Bowels, Kidneys and Bladder; in Inflammatory and Mercurial Rheumatism, it is the BEST Medicine ever Discovered.

IMPURITIES OF THE BLOOD.

For all impurities of the Blood, arising from the imprudent use of Mercury, or other causes; for all diseases of the Skin, and Scrofulous Affections, in all cases where the blood is powerfully determined to the head, producing dizziness and distress, DR. UPHAM'S ELECTUARY is entirely unrivalled.

TO MARRIED LADIES.

Married Ladies are almost invariably subject to that painful and injurious disease, the PILES, with consequent inflammation of the Stomach, Bowels and Spine, weakness of the back, flow of blood to the head, &c.—The Electuary is perfectly safe for Pregnant Ladies, and the most sensitive. Under the circumstances, in which it is known and used, it is *universally approved*, it possesses properties which no other article of the kind does, is more *prompt and efficient* in its action, and entirely free from ingredients which have any but a beneficial effect, the health of the patient being always improved even when no worms are discovered. Physicians prescribe it, and in use the language of one in high standing, who resides in Cleaveland, Ohio, consider it "the only article of the kind he ever saw that was so uniform and prompt in expelling worms" it may indeed be relied on with the utmost confidence, as it has *never been known to fail*; this is the reason why all who have used it will not use any other.

We have in our possession a number of certificates from physicians and others of the highest respectability, who all testify to its superior efficacy, and recommend it as a never failing remedy

FOR THE CURE OF

Colds, coughs, consumptions; for scrofula, scurvy, and all cutaneous eruptions; for bad sore, burns, ulcers, sores of all kinds, and generally local debility

This celebrated Ointment has a most surprising effect upon the blood, in cleansing it from all impurities, upon the glandular fluid, which impregnates the joints and tissues removes stiffness, soreness & pain; upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm, about the ear, and all other parts of the body

This All Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine, and by restoring the tone and function of the urinary organs, thus preventing incontinence of urine It is equally efficacious in acting upon the nervous system by curing neuralgia, St Vitus's dance, palsy, paralysis, weakness or want of feeling or power of motion from some local or general affection of the nervous system. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs

We speak the things which we know of the astounding efficacy of this justly celebrated invaluable and worthily named "ALL-HEALING OINTMENT." The innumerable pains that have been assuaged, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts made glad by health restored, and those who from poverty and affliction, incapacity and inability to pay, have been cured and cheered by its salubrious efficacy, testifying to the truth of all, and more than all, herein asserted.

The broil is found to be more durable than the iron top. And so equalizes the heat around the oven, and a much more even bake is produced in this stove than any other stove known. It has a most perfect arrangement for roasting in front. The Summer arrangement for broiling, boiling, roasting, &c., is complete. The grate clears itself, discharging the ashes into the ash-pit.
